Dear friends and supporters of La Main Verte,

Today, I wish to share with you a moment of reflection and hope that marks our journey.

Nine months ago, the Kids Camp team at La Main Verte embarked on the exciting adventure of creating our very first "Back to the Roots" program, rich with over 20 Grand Games and more than a hundred eco-creative Workshops. Crafted with dedication by our passionate team, these activities had one goal: to allow our nursery to continue to awaken minds and flourish.

This morning, as I was drafting the first version of our 7th Newsletter that I was supposed to send to the tourism office, I felt a weight, a responsibility, to perhaps consider significant changes to the Kids Camp planned for the Easter holidays.

This reflection was further intensified after a conversation with our dear friend Jean-Mi. Together, faced with unexpected challenges, we contemplated ending this beautiful adventure...

Yet, I refuse to let this flame extinguish without a fight, without attempting a step I have rarely dared to take: directly soliciting your support.

To you, parents of wonderful children who have shared unforgettable moments with us, to you who have believed in our vision from the first day, to you who also wish for the adventure to continue, I speak today.

We are at a crucial turning point, and your help could make all the difference. Simply pre-reserving your spot will allow us to ensure the minimum number of registrations needed and attempt to keep La Main Verte as this privileged welcoming place, a space at the heart of Nature to continue to inspire, educate, and amaze.

Together, we have the power to continue to dream, to teach, and to inspire. Join us in this effort to ensure that La Main Verte remains a place of growth and discovery for our children and for generations to come.

With gratitude and hope,
 Solène and the entire My Little Circle team at La Main Verte
